

Washers

Technopolymer

MATERIAL

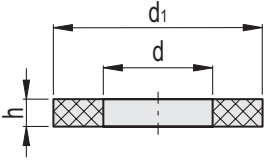

Polyamide based (PA) technopolymer, natural colour.

FEATURES AND APPLICATIONS

The washer is similar in shape and size to that specified in DIN 125 or ISO 7089.

It is made entirely from insulating material that is resistant to corrosion and chemicals. It is suitable for use in automotive applications, as well as in industry, aeronautics, electronics and in all cases where weight reduction is required.

The product is tested for mechanical and dimensional performance. Slight colour variations are perfectly normal and do not affect the quality of the product.

WAD.125

Code	Description	d	d ₁	h
